#### Introduction:

The fourth IEEE International Conference and 10th conference in sequence on Information Systems & Computer Networks (ISCON - 2019) is a forum in which deliberations will be held on various topics pertaining to Information Systems and Computer Networks. Information Systems addresses the challenges for the gathering, processing, storing, distributing and use of information, and its associated technologies, for society and organizations. An information system is essentially made up of five components hardware, software, database, network and people.

The 4th IEEE International Conference on Information Systems and Computer Networks (ISCON-2019) will take place in Mathura during 21st - 22nd November 2019. It will be organized by Department of Computer Engineering and Applications, GLA University, Mathura, Uttar Pradesh, India. All accepted & presented papers of the Conference by duly registered authors, will be submitted to **IEEE Xplore Digital Library** for Publication with **Scopus Indexing**.
