About the MBA (Logistics & Supply Chain Management) Programme

The MBA in Logistics & Supply Chain Management at the Institute of Business Management (IBM), GLA University, is a thoughtfully designed two-year full-time management programme that addresses the growing global need for skilled professionals in logistics and supply chain operations. As globalization accelerates and global trade becomes more complex, the logistics and supply chain sector plays an increasingly critical role in sustaining economic growth and operational efficiency across industries.

This programme integrates core management education with specialized knowledge of logistics and supply chain operations. It provides students with a thorough understanding of the entire supply chain process—from procurement and production to warehousing, distribution, and customer service. The curriculum includes key focus areas such as logistics management, transportation systems, inventory control, demand forecasting, supplier relationship management, warehouse management, green supply chains, ERP systems, GST, and logistics documentation. Additionally, students explore transformative technologies like blockchain, artificial intelligence, and data analytics that are reshaping global supply chains.

The programme emphasizes experiential learning through business simulations, real-world case studies, and a comprehensive capstone project. These components enable students to apply theoretical knowledge in practical business contexts, sharpening their analytical and decision-making skills. Students also participate in industry visits, gaining firsthand exposure to supply chain operations and fostering valuable industry connections.

A significant feature of this programme is its strong industry alignment through a strategic knowledge partnership with Om Logistics, one of India's leading supply chain and logistics companies. This collaboration enriches the learning experience with industry-specific insights, practical exposure, and internship opportunities that enhance students' readiness for the job market. The involvement of Om Logistics ensures that the programme remains relevant, skill-driven, and closely aligned with current industry standards and practices.

Students further benefit from regular guest lectures, seminars, and workshops conducted by industry professionals and domain experts, which keep them informed about evolving trends and strategies in logistics and supply chain management. The programme also focuses on the development of essential soft skills such as leadership, communication, negotiation, teamwork, and ethical decision-making, which are vital for effective managerial performance in this domain.

Overall, the MBA in Logistics & Supply Chain Management at GLA University offers a comprehensive and industry-oriented learning experience. With its future-focused curriculum, strong academic-industry interface through Om Logistics, and a commitment to hands-on learning, the programme prepares students for dynamic and impactful careers in logistics, procurement, operations, and global supply chain strategy.

Program Curriculum (Batch 2025-27)						
MBA-LSCM						
First Trimester						
S. No.	**COURSE CODE**	**COURSE NAME**	**Teaching Scheme**			**CREDITS**
			L	**T**	**P**
